# CSBS

## *Computer Science and Business System*

When the whole of the world is behind monetary gains, the only MNC that strived for holistic gains is TCS. Under its brand, the TATAs introduced many path breaking reforms. In this accord, it introduced a UG programme called "CSBS". Aiming at seeing the future workforce physically and mentally fit, it included the subject BCVS known as Business Communication and Value Science. The subject assists one to be a responsible human being in every aspect of life. Under the aegis of TCS CSBS, CYBERZINE is a dream come true.

# FOREWORD

## Asoke Das Sarma

Vice President (BPO), Tata Consultancy Services

Young boys and girls are the future of our nation and the economic prosperity of a nation largely depends on its ability to innovate. Thus, nurturing creativity and innovation are two of the key elements of a successful education, and a college magazine is a perfect tool to encourage and inculcate these twin skills among the students. I am delighted to learn that RVR&JC youth magazine CYBERZINE is now ready for publication. I take this opportunity to congratulate the board for bringing out this magazine which, I am sure, will play a pivotal role in the overall development of the students and provide them with a platform to demonstrate creativity. May all our students soar high in the skies and bring glory to our nation.

## Poushali Chatterjee

TCS iON Talent Development Center (TDC),  
Gitanjali Park, Kolkata

As we move ahead in the Digital Age we see a lot of transformation around us and to adapt to that transformation, we need to teach ourselves new skills. One of the skills that will be of vital importance in the future will be that of creativity - a skill not easily replicable by a machine. I am really pleased to note that the students of RVR&JC have taken their BCVS journey seriously and have put in a lot of effort to not only create a magazine but also amplify it by creating communication around it. These skills will surely help differentiate them from other students of Computer Science and stand them in good stead in the future. I wish everyone all the best and I am sure that the Cyberzine will be a huge success. I must congratulate the professors and college authorities for providing the right environment for creativity to flow.

## Dr. Rayapati Srinivas

President

I am delighted to know that CYBERZINE is the first-of-its-kind online youth magazine designed, compiled, and published by the next generation of engineers. The maiden effort of the freshmen of CSBS, RVR&JC College of Engineering bore fruit under the direction of the TCS Talent Team, driving the millennials into the exotic world of infotainment on the latest trends. I hope this edition makes you feel like reading and wanting more. Good luck, Team Cyberzine!

## Sri Rayapati Gopala Krishna

Secretary & Correspondent

It gives me great pleasure to know that CYBERZINE, RVR&JC student magazine 2020-2021 is ready for publication. True to its name, this magazine provides awareness of the range and scope of the imagination and creativity of our students. I applaud the editorial team for the diligence and dedication they have invested in realizing this goal and I wish my dear students success in all future endeavors.

## Dr. K. Krishna Prasad

Treasurer

I appreciate the efforts of all the student writers, editors and creators, who encouraged the team to give their best effort. Reading, writing, listening, and speaking have become extinct skills among the youth. Owning the magazine has necessitated students' exploring their innate abilities and honing them to the need. Way to go MAGZIMATES!

# Dr.Kolla Srinivas

Principal

I am contented to learn that CSBS students of RVR&JC college started a youth magazine, CYBERZINE. RVR&JC encourages students round the clock in all activities because participating in extracurricular activities helps students to improve their skill sets beyond academics. I hope these extracurricular activities help in the overall development of students. I appreciate students for their dedication and responsibility towards CYBERZINE. I wish they reach great heights of success and bring glory to our college. All the best to our undergraduates.

# Dr.K. Ravindra

Director - Academics and R&D

I am quite pleased to learn about the forthcoming issue of the college magazine, 'CYBERZINE'. No doubt this endeavour will bring out an array of creative and scientific expressions with distinct individual signatures. I do appreciate and applaud the magazine team for their successful completion of this banal yet daunting task of putting together the myriad thoughts and dreams of our students into a meaningful and delightful visual fest called CYBERZINE.

# Dr. N. V. Srinivasa Rao

Director - Finance & Administration

A magazine takes a lot of work to put together on your own. I believe this process includes exposure to many skills. I appreciate the work rendered and congratulate all the magzimates for bringing out Cyberzine.

## Dr.M.V.P.Chandra Sekhara Rao

HOD (CSBS & DS)

I am happy to learn that the department of CSBS is bringing out a student magazine christened 'CYBERZINE". The publication of this spectacular student magazine has added value to the department as well as to the college. I strongly believe that the informative articles and innovative ideas presented in the Magazine will be useful to the readers, and also strives to inform, engage, inspire and educate diverse readership on developments in the field of Computer Science. I appreciate the initiative and team work of the students. I wish them all the best in their future endeavors and hope the students of CSBS will bring laurels to the college.ur

## Dr. K. Sujatha

Assistant Professor (English)

Becoming the better version of self is a holistic process which involves upskilling on several aspects like academics, social and life skills. I believe, magazine work has ignited students' innate abilities, making them industry-ready.

## Dr. G. Kalpana Devi

Assistant Professor

By highlighting learners' previously untapped talents, Cyberzine aids in the development of their potential. The expertise gained in the process is invaluable.

# who are we?

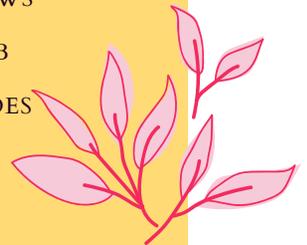

Life is an unpredictable journey of endless emotions stopped with fun and frolic moments. It's all about living the moments. Starting from birth to the end of life, every one of us undergo diverse situations and bump into unique relations. Over years, we cherish some and forget many. This is an effort to chronicle each and every moment spent as a student. We're diverse yet inclusive for an amazing cause, to showcase our uniqueness. We're MAGZIMATES, the enzymes of CYBERZINE. We want to catch the pulse of Next Zen with enthralling write ups and brand ourselves. Stay glued to zoom in to the amazing trends, eye catching pictures and stunning satories by the maiden batch.

Guess who the path breakers are?  
None other than the R(20) CSBS students of RVR&JC  
!

# WHY CSBS?

## AN EQUAL APPRECIATION OF HUMANITIES, MANAGEMENT SCIENCES AND HUMAN VALUES

As CSBS unfolds lovable features both technically and emotionally. It is designed to deliver future workforce that befits the business 4.0 era. Concentrating on diverse aspects uniquely, the program equips learners in:

1. Contemporary Technology
2. Technology Abstraction
3. Common Business Principles
4. Business Discipline and Service Orientation
5. Innovation Ability
6. Ethics and Life Values

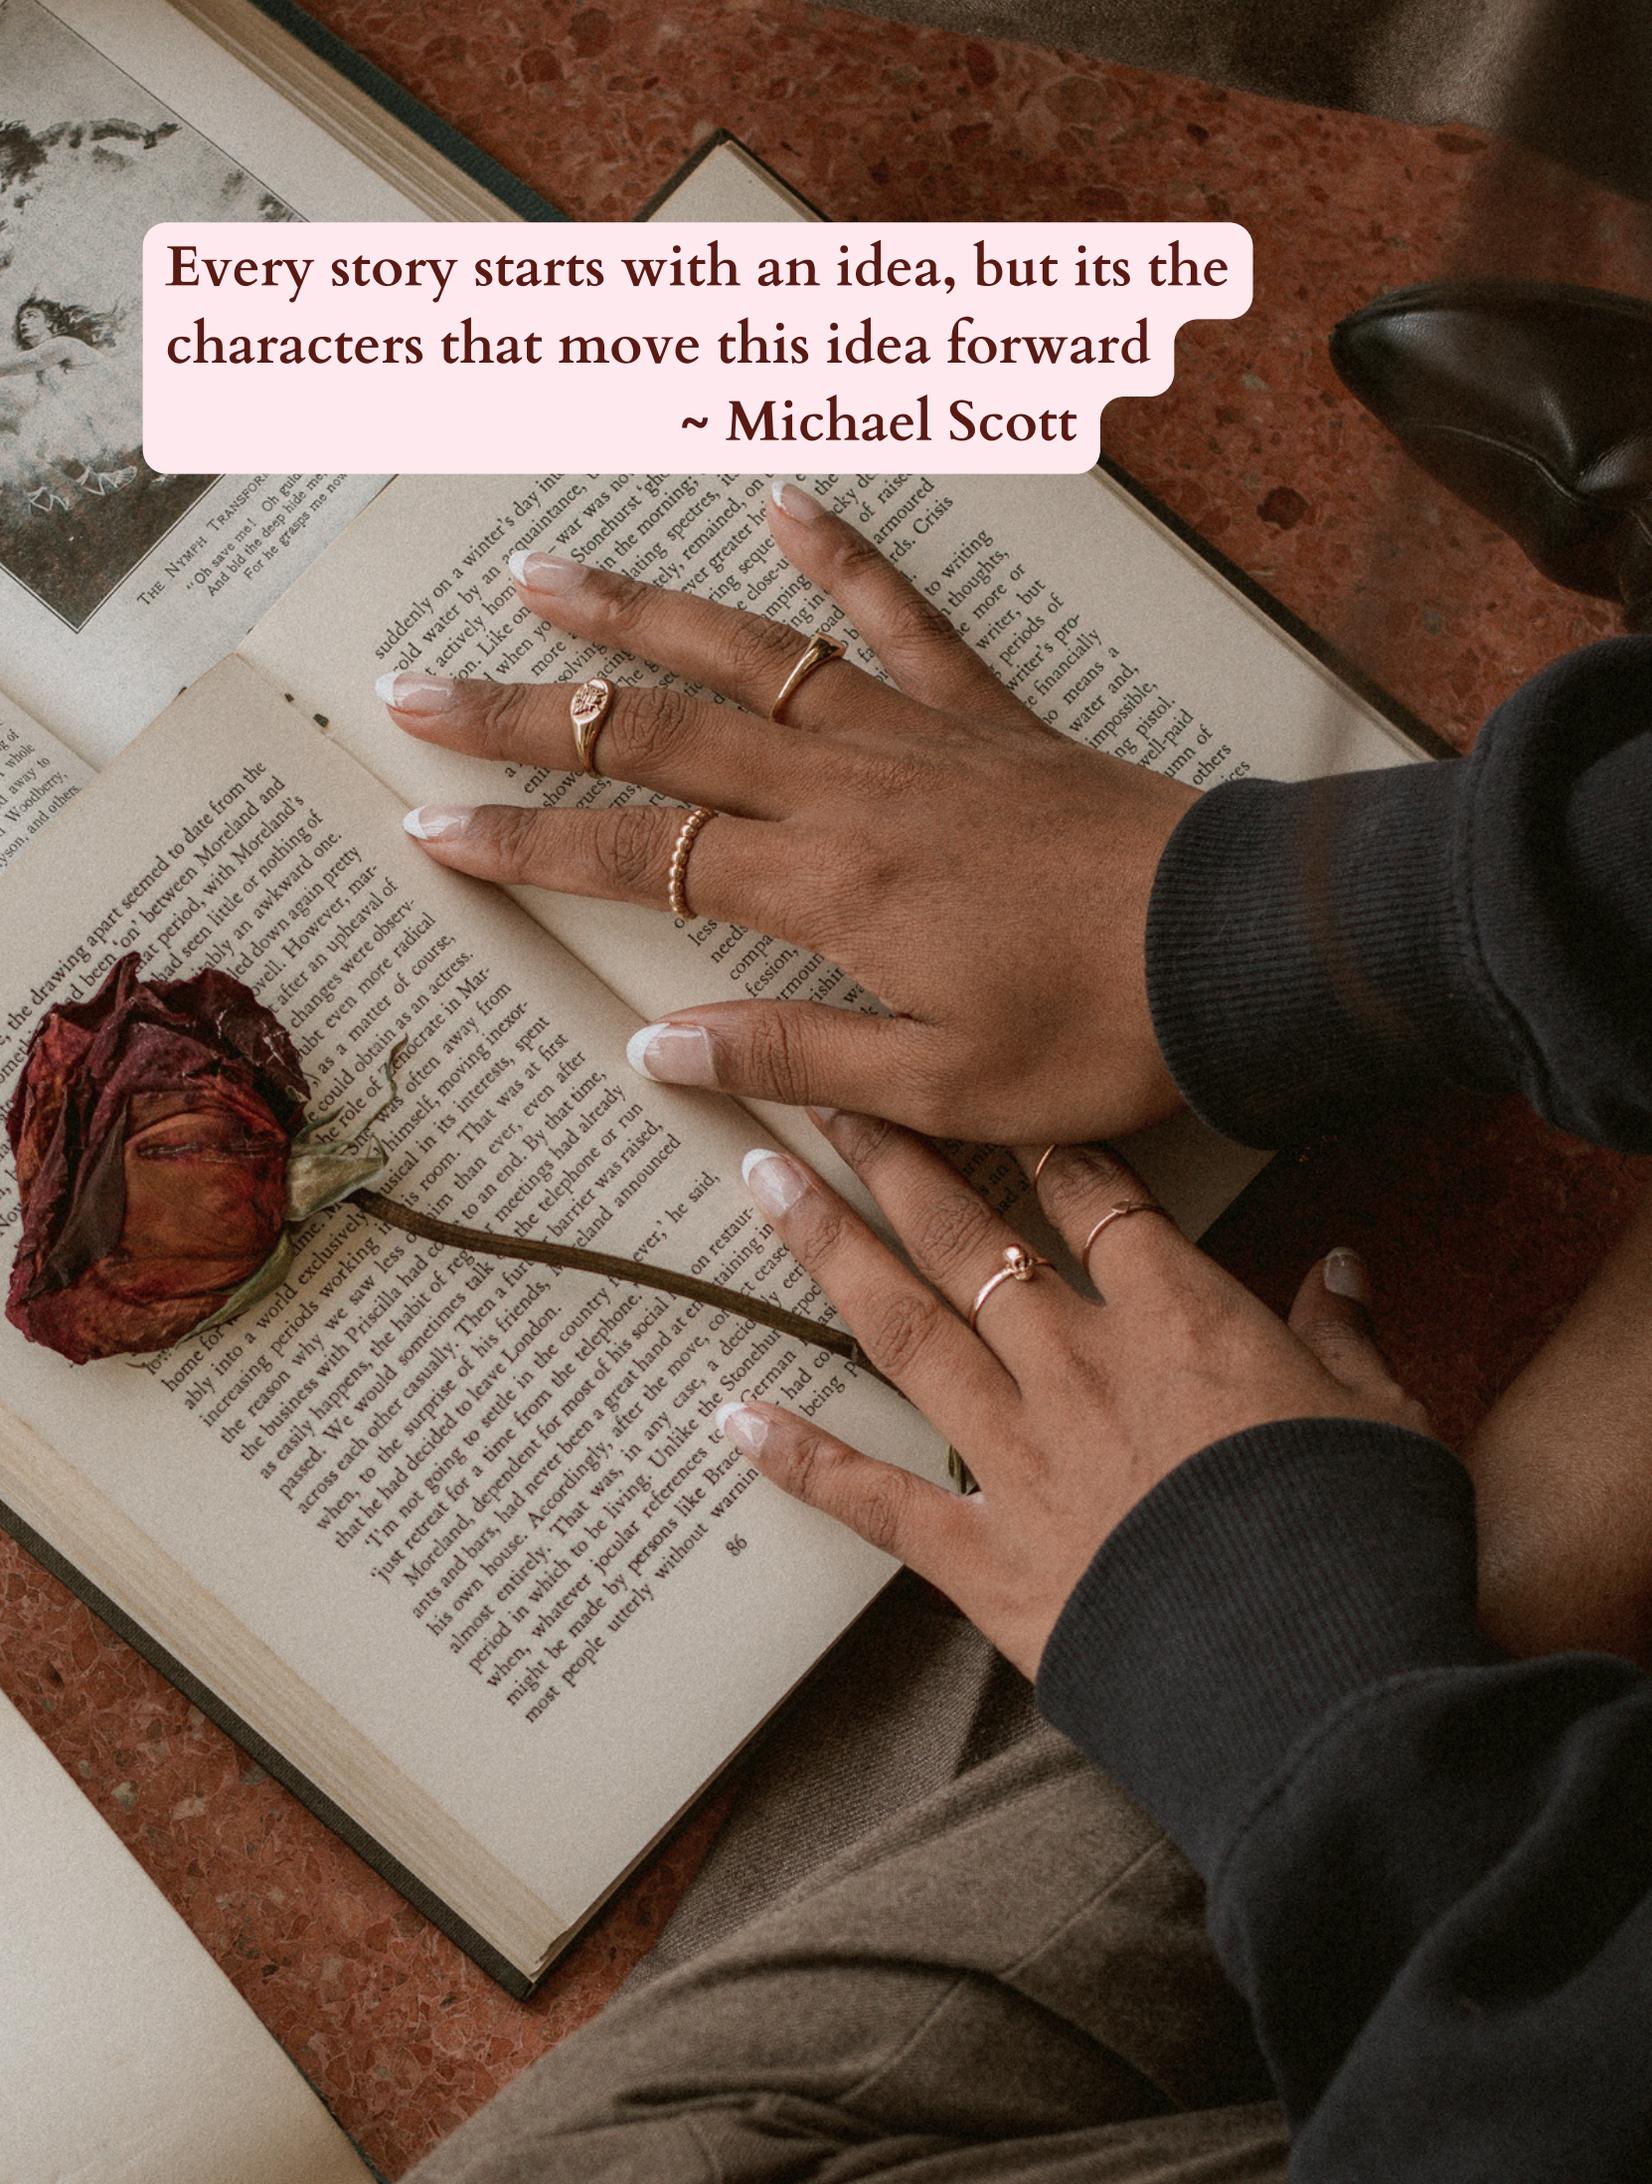

Still the question lingers! What's so special about csbs?

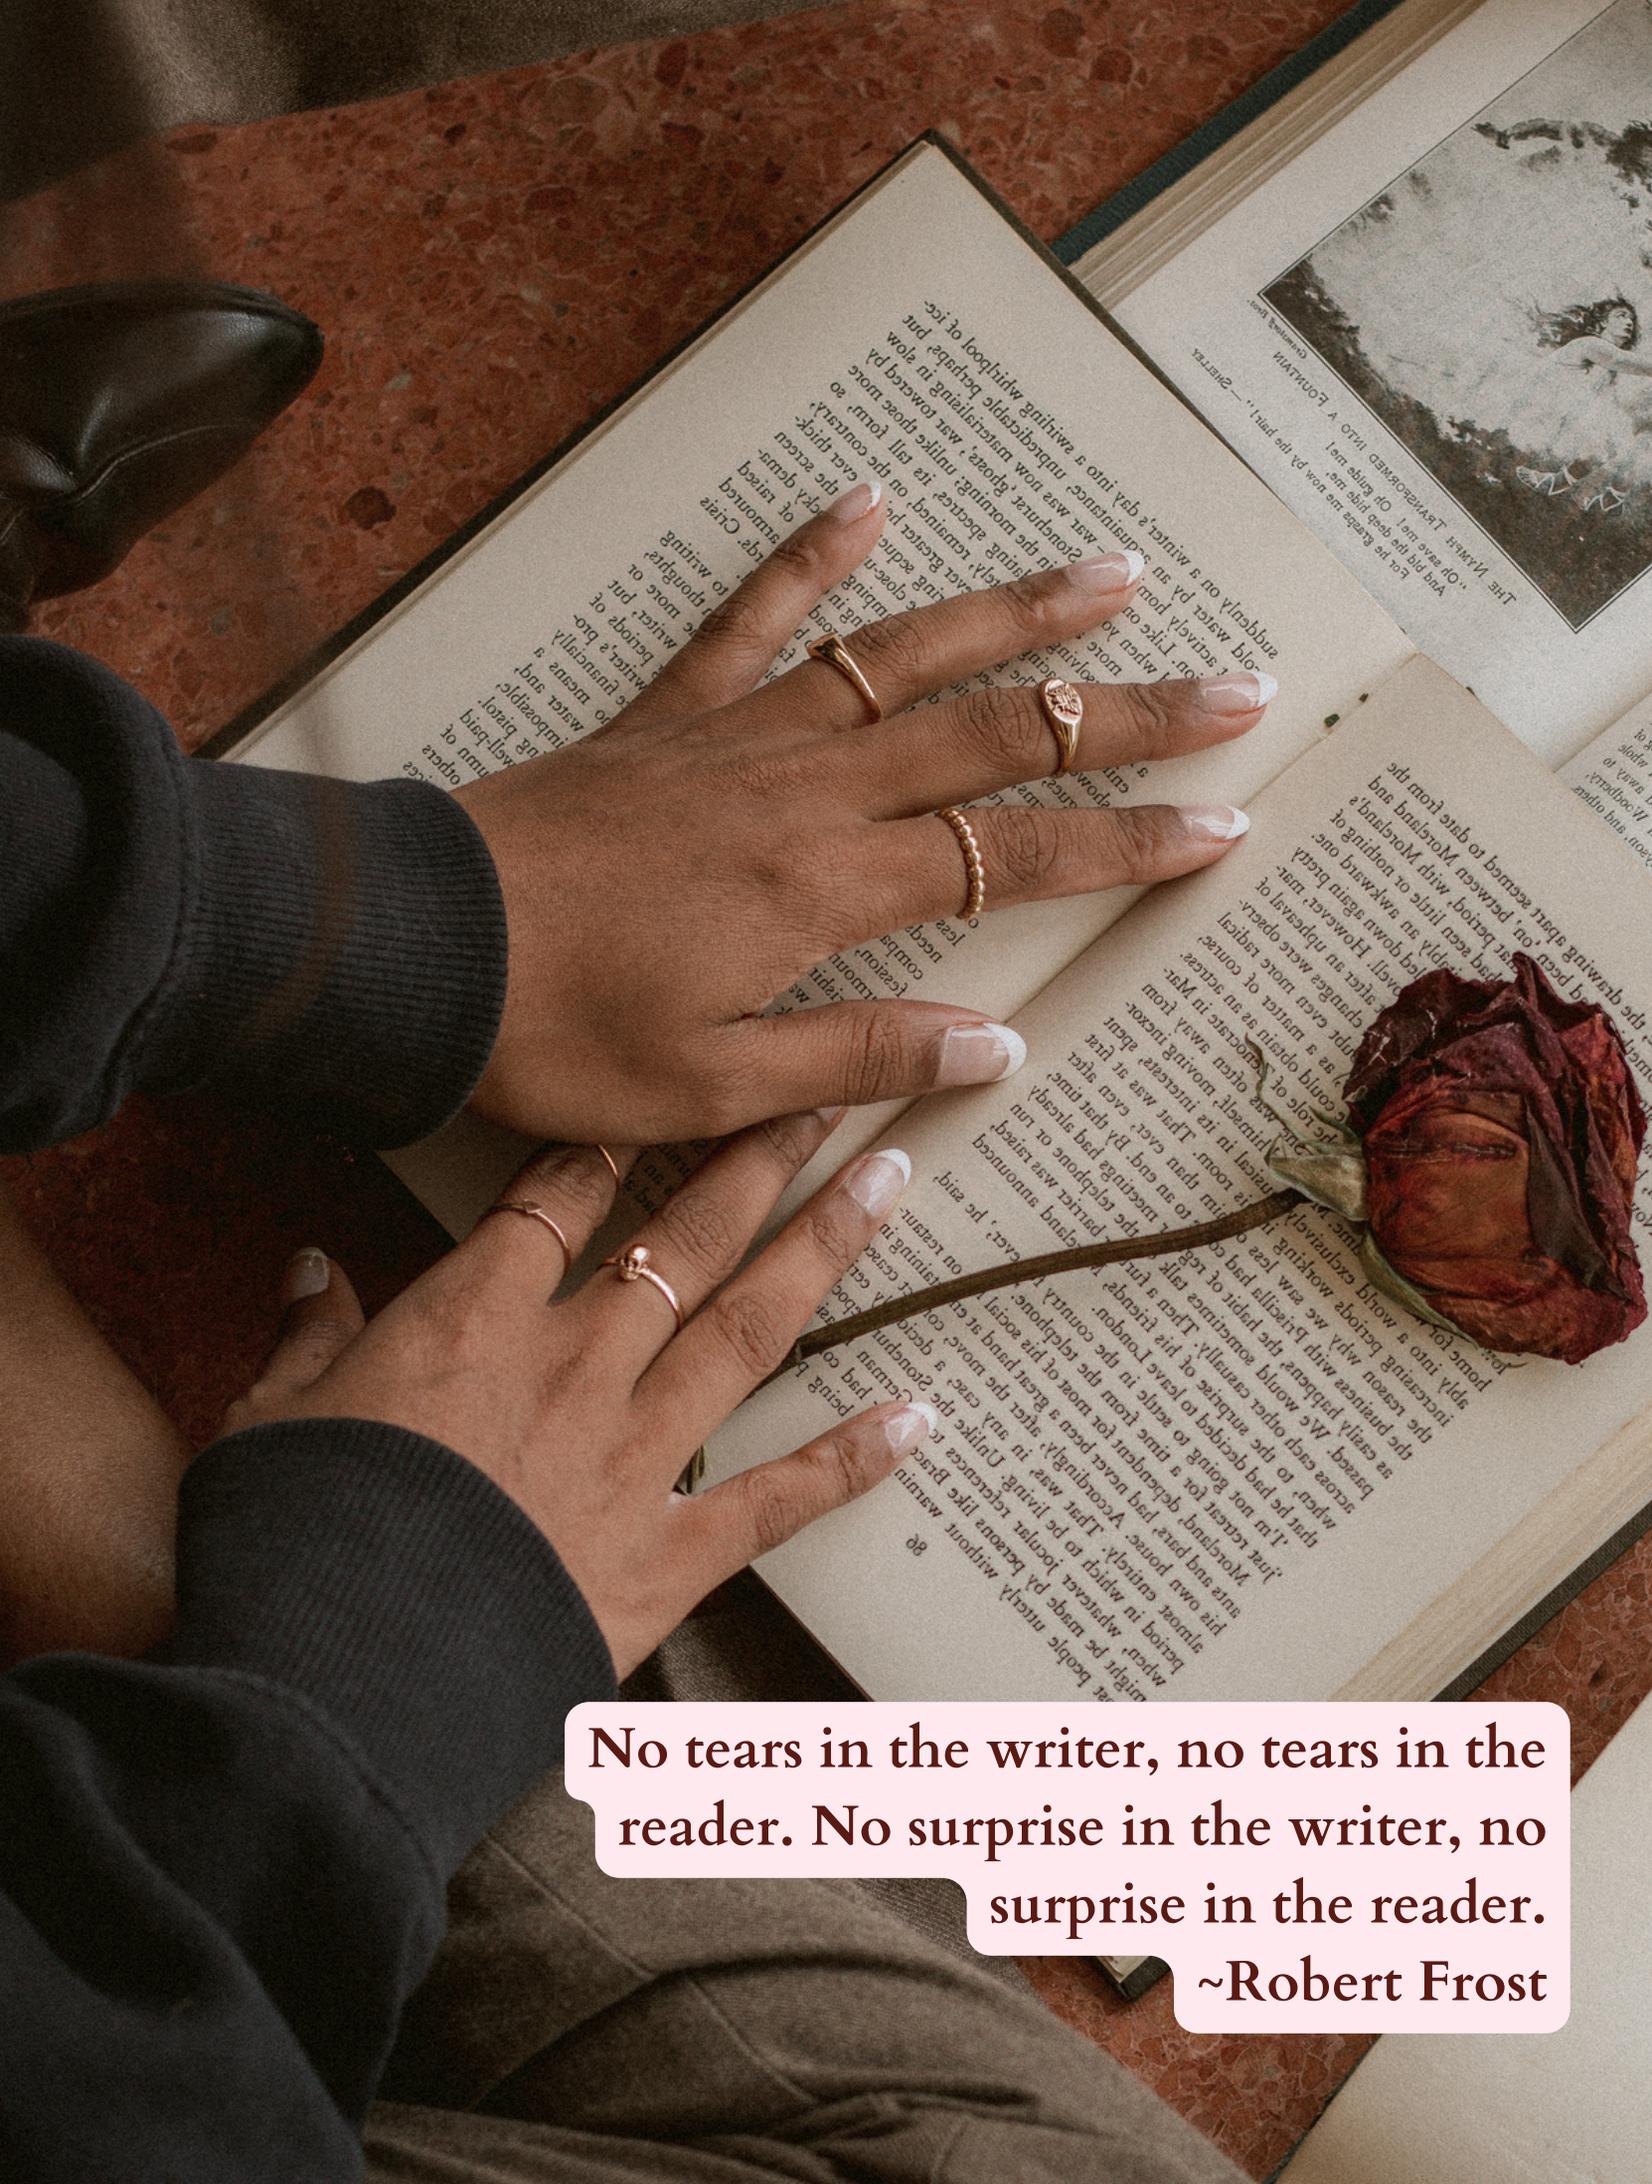

Our answer is “yes! In a nutshell you have to take up different courses partially to gain holistic knowledge about all the aspects, but CSBS alone is enough to be fit in every aspect mentioned above.” And you know what, in the process of making us a better version of self, TCS has taken a key initiative to train the trainee”. Under this, the staff who’re going to handle the subjects of CSBS are trained by TCS delegates in association with academicians. Industrial projects and training are offered in the 3rd & 4th years by TCS itself. And finally when it comes to placements, remember one thing when we possess enough knowledge about everything ,what else will stop us from getting a well-equipped job?

**CSBS- for a change !**

Every story starts with an idea, but its the characters that move this idea forward

# THE POOR PESSIMIST

by Aafreen Zafar

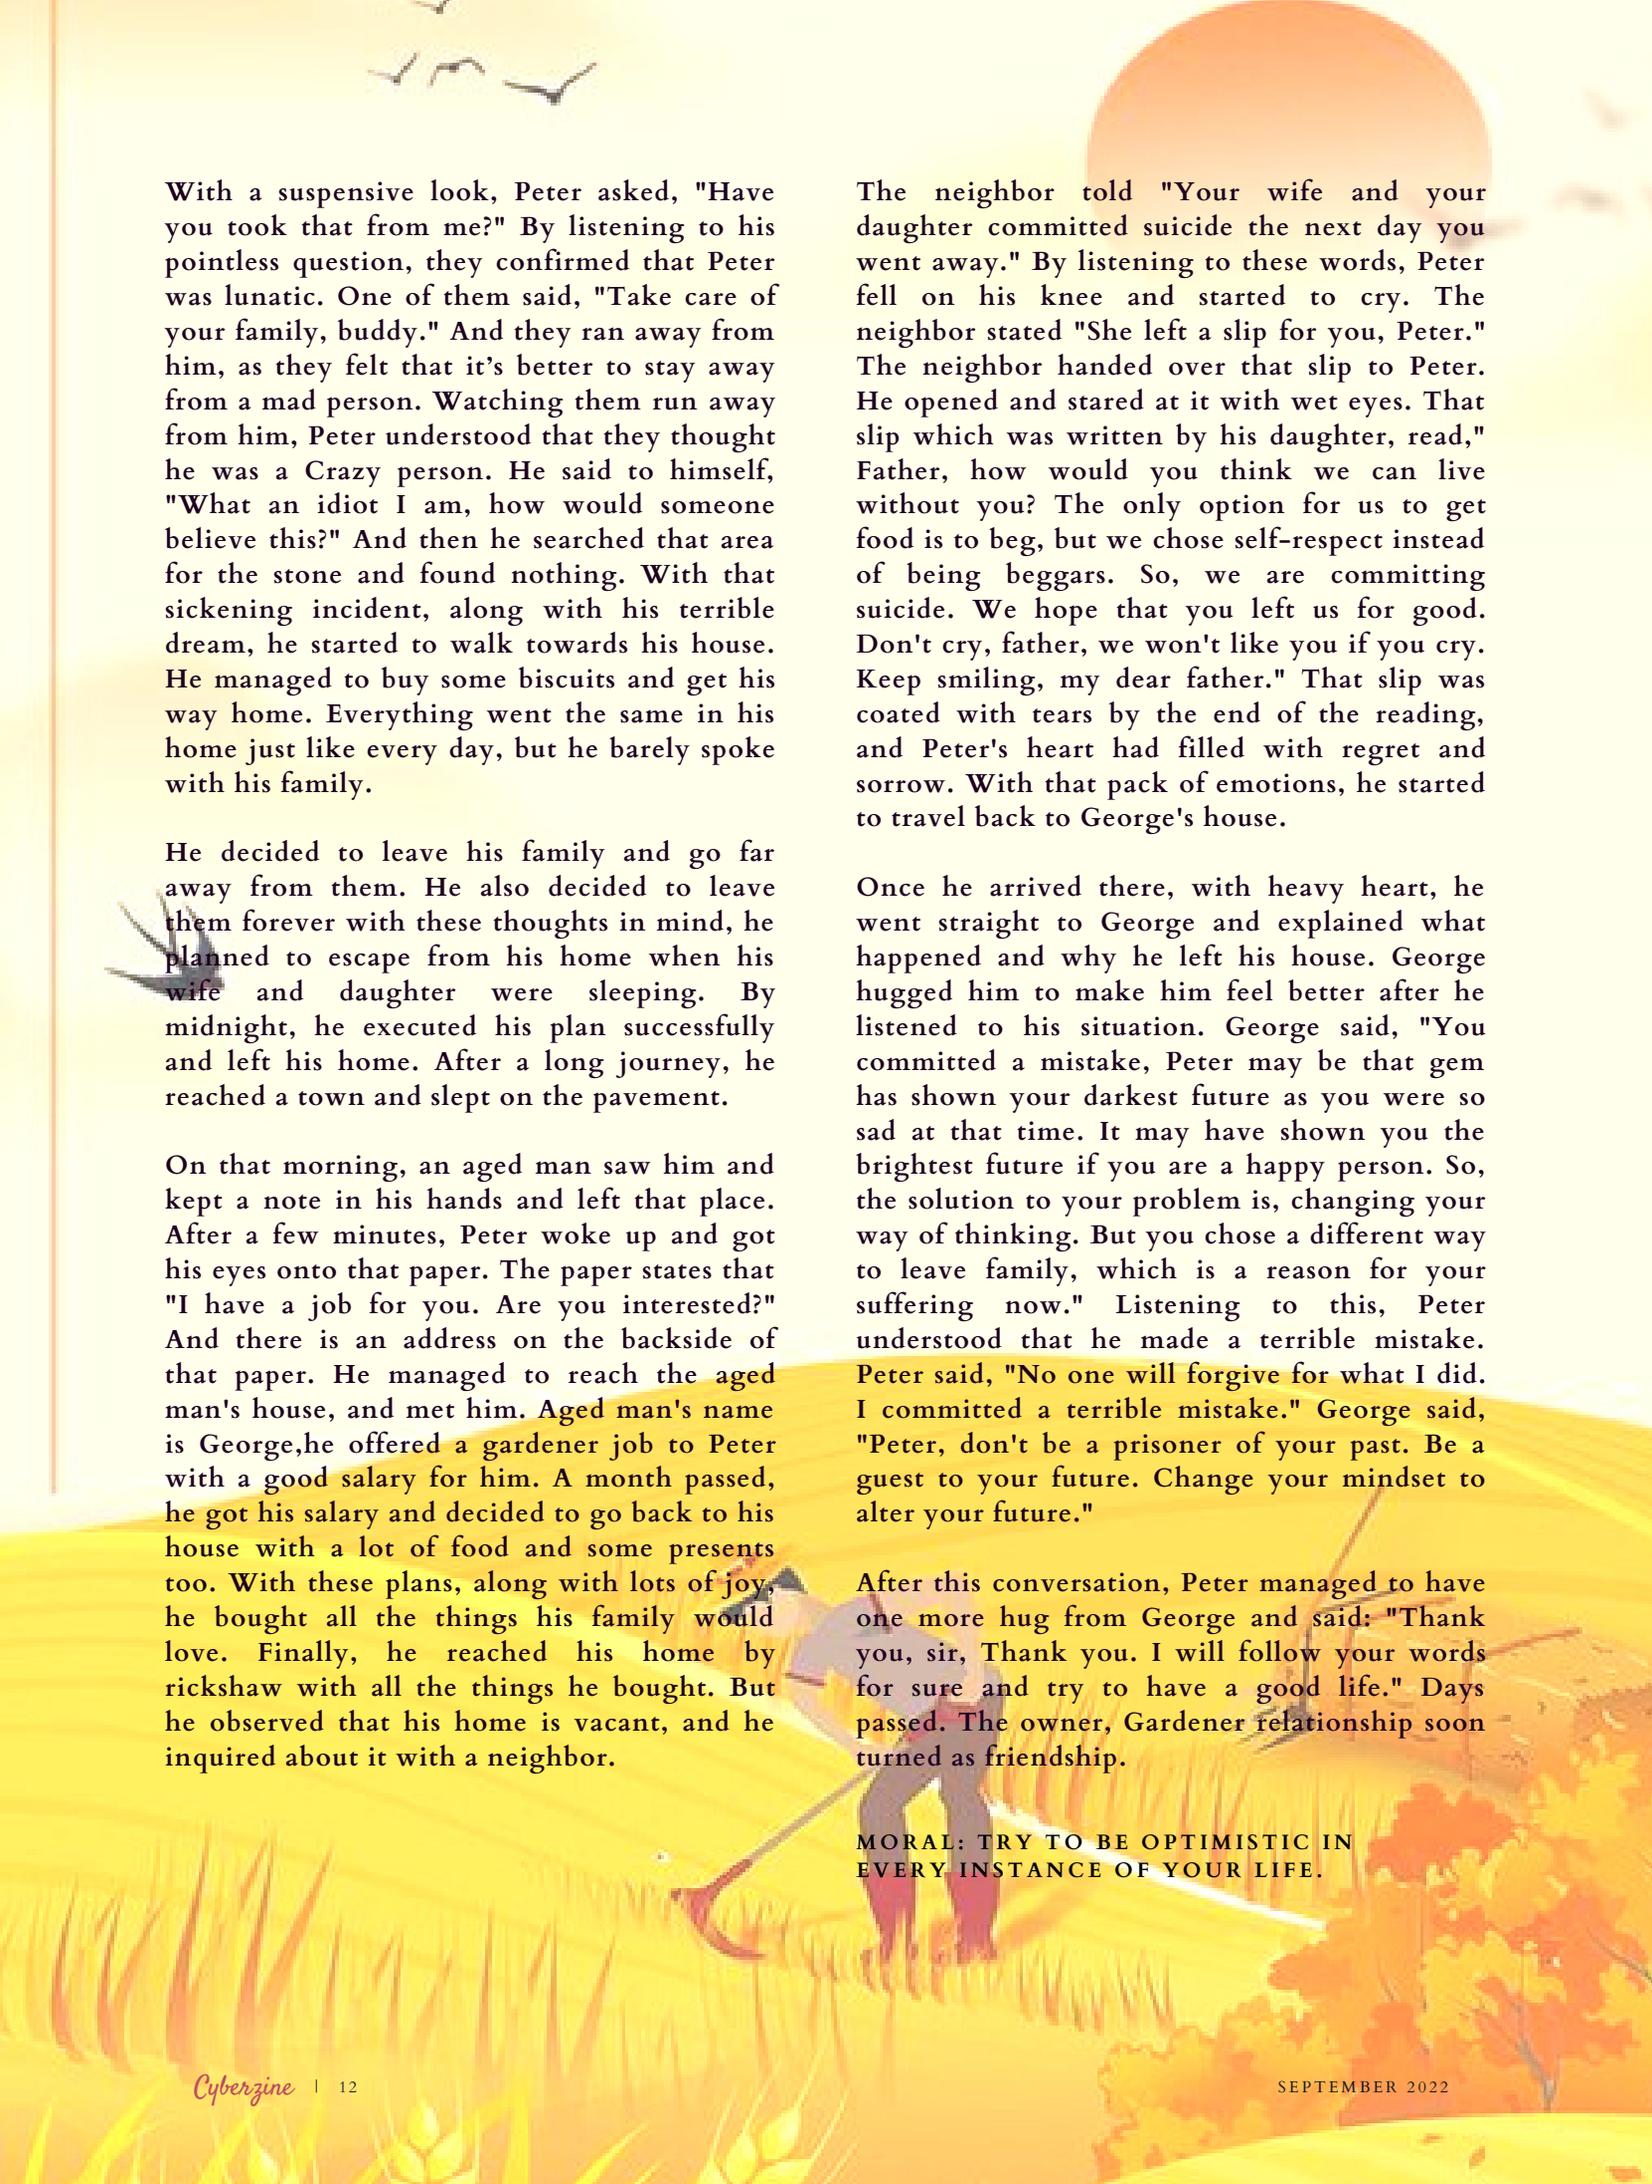

Once upon a time, in a pleasant town, there lived an annoying family. The badge "Annoying" was given to that family by others, as they never show intentions to interfere with others. But my opinion about that family is, it is just a regular needy family with three members, Father, Mother, and one Daughter. Their poverty is the reason behind their so-called annoying behavior.

Due to their family situation, they live in fear of being bullied. The father's name is Peter. He is physically strong but mentally weak. The mother's name is Julia. She is the sickest person in the family.

The daughter's name is Bella. She is a Ten-year-old kid. Every day Peter must reach to the nearby forest as soon as possible and cut a pile of branches and have to go market to sell them. He should repeat this whole procedure until he gets sufficient money. With that money, his family can have a onetime meal. Roughly by the evening, he returns to his house with a small packet of bread.

And that bread packet will be divided into two halves, one for that day's night the other for next day's morning. Water fills the remaining portion of their stomach if they feel hungry at any time. Daughter Bella stays at home and watches over her sick mother. One day, like every day, Peter went to the forest and started his work. While he was busy in his task, a Green-Colored Gem fell in front of him. With a surprised look, he tried to pick it up. At the very moment he touched that gem, he fainted.

After some time, a group of people passing through that way have seen him and sprinkled some water on his face to wake him up. Peter woke up with a frightened expression on his face. Peter murmured, "My family is going to die." And then he even started to scream that his family is going to die. That group of people was stunned as they do not know what happened to him. One of them asked, "What happened to you, dude?" Peter said, "I have seen my future. My family is going to die because of me."

With a suspensive look, Peter asked, "Have you took that from me?" By listening to his pointless question, they confirmed that Peter was lunatic. One of them said, "Take care of your family, buddy." And they ran away from him, as they felt that it's better to stay away from a mad person. Watching them run away from him, Peter understood that they thought he was a Crazy person. He said to himself, "What an idiot I am, how would someone believe this?" And then he searched that area for the stone and found nothing. With that sickening incident, along with his terrible dream, he started to walk towards his house. He managed to buy some biscuits and get his way home. Everything went the same in his home just like every day, but he barely spoke with his family.

He decided to leave his family and go far away from them. He also decided to leave them forever with these thoughts in mind, he planned to escape from his home when his wife and daughter were sleeping. By midnight, he executed his plan successfully and left his home. After a long journey, he reached a town and slept on the pavement.

On that morning, an aged man saw him and kept a note in his hands and left that place. After a few minutes, Peter woke up and got his eyes onto that paper. The paper states that "I have a job for you. Are you interested?" And there is an address on the backside of that paper. He managed to reach the aged man's house, and met him. Aged man's name is George, he offered a gardener job to Peter with a good salary for him. A month passed, he got his salary and decided to go back to his house with a lot of food and some presents too. With these plans, along with lots of joy, he bought all the things his family would love. Finally, he reached his home by rickshaw with all the things he bought. But he observed that his home is vacant, and he inquired about it with a neighbor.

The neighbor told "Your wife and your daughter committed suicide the next day you went away." By listening to these words, Peter fell on his knee and started to cry. The neighbor stated "She left a slip for you, Peter." The neighbor handed over that slip to Peter. He opened and stared at it with wet eyes. That slip which was written by his daughter, read, "Father, how would you think we can live without you? The only option for us to get food is to beg, but we chose self-respect instead of being beggars. So, we are committing suicide. We hope that you left us for good. Don't cry, father, we won't like you if you cry. Keep smiling, my dear father." That slip was coated with tears by the end of the reading, and Peter's heart had filled with regret and sorrow. With that pack of emotions, he started to travel back to George's house.

Once he arrived there, with heavy heart, he went straight to George and explained what happened and why he left his house. George hugged him to make him feel better after he listened to his situation. George said, "You committed a mistake, Peter may be that gem has shown your darkest future as you were so sad at that time. It may have shown you the brightest future if you are a happy person. So, the solution to your problem is, changing your way of thinking. But you chose a different way to leave family, which is a reason for your suffering now." Listening to this, Peter understood that he made a terrible mistake. Peter said, "No one will forgive for what I did. I committed a terrible mistake." George said, "Peter, don't be a prisoner of your past. Be a guest to your future. Change your mindset to alter your future."

After this conversation, Peter managed to have one more hug from George and said: "Thank you, sir, Thank you. I will follow your words for sure and try to have a good life." Days passed. The owner, Gardener relationship soon turned as friendship.

**MORAL: TRY TO BE OPTIMISTIC IN EVERY INSTANCE OF YOUR LIFE.**

# #A Soulful connection

Dear Langur,  
I don't know why I adore you,  
I don't know why I strive for you to the most,  
I don't know why you became so important for me,  
I don't know why I own you,  
I don't know how I can remember you even in the group, I don't  
know how I can love you even though I dislike other breeds of  
your Kind,  
I don't know how you will behave with me if you're released out  
of your shelter, But,  
I can say that I can't leave college without seeing you,  
I can say that I never treated you as an animal,  
I can say that I feel very depressed when you're low,  
I lost myself somewhere and I felt bad that you aren't responding  
to me after lockdown yet I love you my charm because you are  
loyal, honest, and crazy enough to be adored.

*Sri Vidya*

# An Ugly Girl's Beauty !

Yes! She is ugly but not by heart,  
Yes! She is ugly but not a liar,  
Yes! She is ugly but never failed to care  
for her loved ones,  
Yes! She is ugly but never failed to take  
appropriate decisions in her life,  
Yes! She is ugly but never became the  
reason for someone's hurt,  
Yes! She is ugly but innovative and  
creative,  
Yes! She is ugly but accepts everything  
that happens in her life,  
She is ugly but shined like a bright star at  
every milestone and proved herself.  
And at last, though she possesses all these  
qualities, they are not even taken into  
consideration because of her appearance.  
There is no need to be bewildered if it is  
the only thing that is being gossiped  
about. But she will never allow all these  
things to ruin her life because she has that  
strength of inner beauty which is like a  
breath for a human to survive, to be  
successful and to be a complete individual.  
A person is always beyond appearance.  
Inner beauty matters!

*Srividya  
Alapati*

# *Inner turmoil!*

THE PEOPLE OF MY PAST,  
THEIR EXPERIENCES ARE SO HAZY  
WERE THEY HAPPY OR ANGRY?

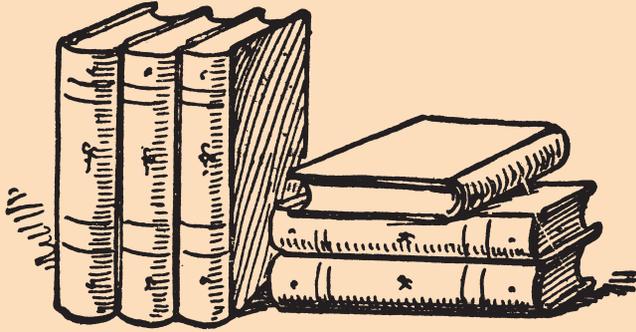

I THINK I'M HERE,  
OVERTHINKING EVERY LITTLE THING...  
MY CONTINUOUS SILENCE IS ALARMING  
ALL THE WORDS STING

GETTING HARDER TO PRETEND THAT AM  
ALRIGHT  
FAKING SMILES IN THE DAYLIGHT  
AND CRYING AT THE NIGHT.....

QUESTIONING IF THINGS ARE GETTING BETTER  
OR WORSE  
FEELING LONELY IN THIS UNIVERSE  
TRYING TO KEEP TERSE.

BUT I HAVE SO MUCH LEFT TO SAY...  
FEELINGS I WANT TO PORTRAY,  
BEFORE I DECAY  
BUT I HATE THE SOUND OF MY OWN VOICE  
I'D RATHER BE MUTE....  
BUT DO I HAVE A CHOICE?

*~ Ayesha Muskaan*

# Why do I love cartoons?

---

I started watching cartoons at a very young age, didn't know what was going on but the child in me gets excited listening to the voice of Doraemon, Shinchon on television even at this moment. I remember throwing tantrums if my parents switched off the devices. Didn't know how a mouse or dog speaks. Didn't know how the students in the cartoon remain in the same class and are of the same age when I am growing old. I don't know how the time goes while watching cartoons but doesn't when I am preparing for something. Didn't know how they go to the past and future within a snap of fingers using some table drawer. I always asked my mom to buy the same table for me and she used to look at me with an expression as if I was lost. Didn't know how they get that strength to beat someone double their size after eating a laddu. Even I wanted a Doraemon who could solve my problems. A kiteretsu who would invent something precious. Children can be taught our mythology using animated series in a fascinating way.

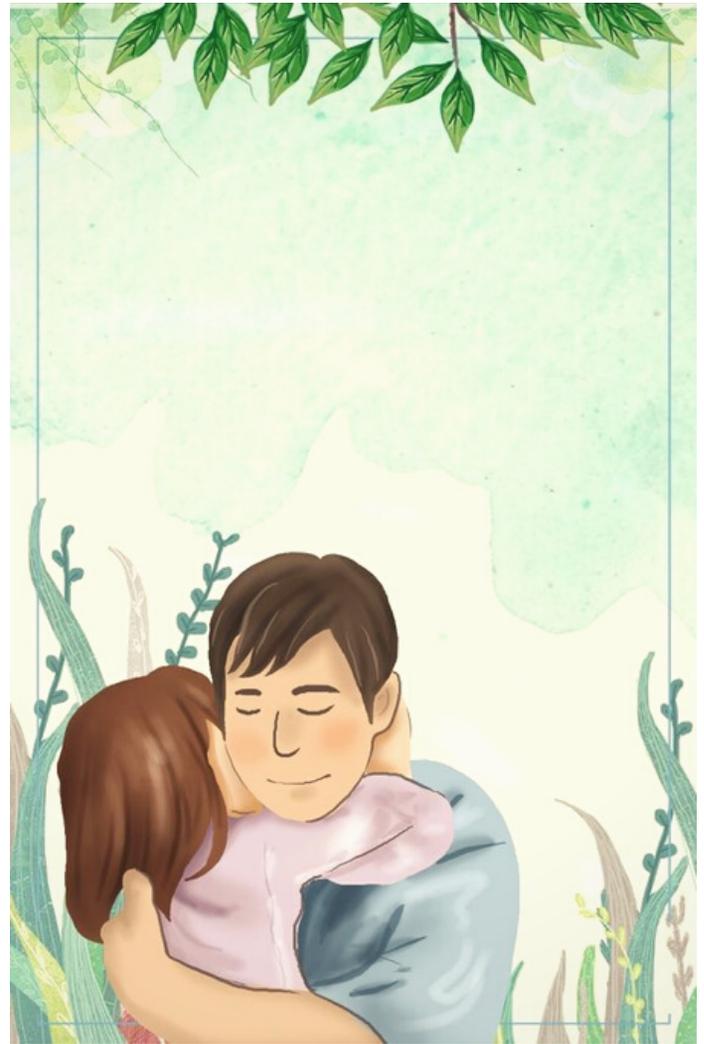

---

## Cartoons & My Lifestyle

---

As I grew up, I understood something interesting about cartoons. It's just that they are animated pictures and their voices are dubbed. But we can always learn something by watching cartoons, they inculcate good habits among children. They learn to share their belongings with others. They also teach us that good will always win over bad. Their friendship is amazing. The way they respect elders is good. A lot of values are depicted in these cartoons which children can adapt easily as they are being portrayed by children of their age. All these cartoons made my childhood blossom and filled it with entertainment and memories.

By B. Harathi

## WHY NOT ME?

That was a happy family with a father, a mother, a girl, and a boy. Up to the time, when the children grew up for their studies, all were good days. But when they started growing, problems too started kicking them off. Money, as we all know that the whole world runs with it, then how is it possible for a poor little girl born in a middle-class family to lead a balanced life? Yes, unbalanced life. As their financial conditions weren't that good then, the head of the family decided to get his son educated & his daughter married off. Just like a typical Indian father, he might have thought that his son is enough to take care of them & getting their daughter married relieves him from one of the utmost responsibilities. But situations hit the father's expectations in the other way. The boy was devastated. He never cared for his father even during his last stage too. But the girl still remembered, "How his father used to work day & night for the welfare of the family?". This made her realize that "It is her responsibility to take her father home & take care of him then." Going through all this, the man at the end realized that "There is nothing to do with gender. It just lies in our perceptions. We should know how to treat an individual." But at every stage of her life, whenever she got discriminated against, whenever her brother was allowed to do the things that she wasn't allowed, a question lingered in her "WHY NOT ME?". What about the answer? She's right here leaving that for you.

P.Niharika

# BEYOND THE EXPECTATIONS

I am going to share my experience about my first trip with my peers. When I was studying in ninth grade, our teachers decided to take us to an industrial tour. We were upset because it was not an amusement park, vacation spot where we could enjoy ourselves. We started our journey reluctantly. We all went to cotton spinning industry in Narakoduru, Tenali. Then our opinions changed drastically. We've seen many of the hardworking people in the industry. The head of the industry engaged a person as our guide to accompany us to visit the factory. The person's voice kept us keen and engrossed. They arranged a heavy lunch which made us sluggish in the afternoon. After that we started heading back and then the secret was revealed. We were also going to the park and bird sanctuary. Till then I felt drab as we've started back very quickly. Next we went to a bird sanctuary. I adore birds and animals. Our Principal grabbed all our attention by explaining the beauty of these birds and animals in the sanctuary. We've done many annoying things there and went to the park. We've enjoyed the green spaces over there and waterfalls and what not. Till then we thought our principal was strict and an uptight person, we came to know that he was very caring. I thought that this tour must be perpetual. This tour had a profound impact on me. I learnt about the hard work we should do from those workers who had been involving in their work in the industry and to lead a happy life from birds and animals in the sanctuary. I felt rejuvenated after the vacation.

**B . Yasaswini**

# A HEART BREAKING STORY

---

Have you ever gone through a friendship heartbreak? Did your heart feel deceived? I'm certain all of us would have experienced it.

Let's go through my story.

I used to have a group of friends during school. Everything was fine until I realized that, "People may change with time." Yes! As seasons change, people may also change but memories won't. At a certain point of time, they all got my back. But as days passed, few of them were acting like they cherish me but criticizing me behind my back. They were like the two-faced chameleon. It looks beautiful, so these people! Heart cried in pain and I was unable to believe this as I thought they were a part of my life. Days passed on but the words they said kept stabbing me. It took me a lot of time to realize their opinions and thoughts and learn the truth. Can you guess who helped me in coping with this situation? It's a friend from the same group, who stood with me throughout the journey. Everything depends on the people we choose, be with the right-ones and learn from the wrong ones!

*Pratushya*

# AN ABSCOND AWAY!

This is my time to revive the past when I was in the anime world. As far as I could remember it was beautiful, interesting, and innocent the way it looked on the screens. But I was yet to discover the darkest secrets of it and the shadows deep down are yet to be unveiled. The day being casual and breezy, I was in the warmest of rooms of our house. With the headphones plugged in, I had already completed ten seasons of my favorite anime Naruto and was about to start the next part when I freaked out and sensed a cool and icy feeling around my arms and to my horror, I realized that I split my cold coffee all over. I could see my cousins all laughing looking at me and then I blurted out “Shadow Clone Jutsu! When there was a strange feeling at once. I could sense something passing through my body. I felt weird and inquisitive but, I cleaned the place and fled away immediately.

The night approached soon and yet I couldn't get the feeling out of my mind kept on thinking about it and soon fell asleep. Suddenly, I could see myself in a whole new world of anime with all my favorite characters in it. I could hear people calling me and asking me directions, asking who was I. It was just a spark of time that I saw one of the main characters 'Naruto Uzumaki. I said, “Hey! You're Naruto Uzumaki! the child of prophecy!” He was completely awestruck hearing me say that. He said “who are you? And how do you know me?” I was about to burst saying I watch your show but instead, I replied, “I know you Naruto! And you are the bravest person I've ever known!”. Then I remember him pulling me to introduce his team and friends. At a far distance, I could see his sensei Kakashi Hatake, Sakura, and Sasuke. I was way too much into my dream that I had lost the sense of touch and hearing for a time. As I was talking to all the characters in my very own dream world, I didn't want to wake up. I commemorate learning how to awaken my chakra using some hand gestures and to use ninjutsu. The time has passed too soon and the last thing I could recollect was me saying goodbye to the characters and hearing them say “DON'T FORGET YOUR NINJA WAY! WE ARE ALWAYS HERE FOR YOU WHEN IN NEED DATTEBAYO! GOODBYE!”.

Then I was startled by my mom and my eyes were all blurry. When I explained what happened to my mom, she chuckled and said, “what's wrong with you? Did someone bully you again?” I tried to elaborate but she smiled and gave me the coziest hug ever! To this day, I can do all those gestures I learned and I could never decipher if it was only a dream or something else! Children all over the world have a getaway from the problems they face in their pure lives. They get bullied, compared, and maybe even get slapped for their mistakes. I encountered a bunch of bullies in my school days and was pushed to the gravest point. Dreaming and making my own stories was one of those things to encourage myself.

But I have outshined it and learned my very own ninja way to stay strong! So, for those who are bullied or need help, BE AN ENCOURAGER AND A NINJA TO THEM IN ALL WAYS, CAUSE THE WORLD ALREADY HAS PLENTY OF CRITICS.

*Michela Sivathmika*

RULE THE WORLD."**

**HOPHI AMERICAN**

# THE D-DAY

## SAI BABA

25th June 1983. India lifts the World Cup for the first time in the history. The Captain of the Indian Team, Kapil Dev proudly lifts the World Cup at the balcony of the Home Cricket. That is a moment which was cherished by the nation as the turning point in the History of the Indian Cricket. The more we go through these Under-dog victories, we will find the things more fascinating. They are the most fulfilling tales for a sports lover. Be it the Ireland against England in the 2011 World Cup or Scotland against England in 2018 or Bangladesh against India in the 2007 World Cup or be it the same India in the inaugural T20 World Cup. They are everywhere in the History. But the standout Under-dog Victory would be India lifting the 1983 World Cup, considering the circumstances under which the victory came.

Before the 1983 World Cup, Cricket doesn't have a larger fan base in India. Hockey is ruling the nation. BCCI doesn't even have the funds for the team to travel. A small group of Cricket fans in the Kolkata helped BCCI with their own money to help the Indian Team reach the venue. The expectations were so low around the country on the Indian Team, that most of the country didn't even know the squad for the Tournament.

India faced the mighty West Indies in the first match of their League games. Surprisingly, the West Indians faced a defeat, their first-ever in the World Cups. That's where it all started. That's where the belief got into the Indian Camp, that they are capable of winning against the big teams. Heroes raised in the form of Yashpal Sharma who scored 89 in the first innings and Roger Binny who helped India bowl out the mighty West Indians. The next game, India didn't face much of a competition from the rookie Zimbabweans and won comfortably. The next game India faced a massive defeat against the Australians with Trevor Chappell scoring a hundred and Ken MacLeay running through the Indian Batting Order. The second round of the league started with the Indians suffering yet another defeat, this time against the mighty West Indians and the situation even worsened with Dilip Vengsarkar being hit on the mouth by a Malcolm Marshall Bouncer. The Indian Side was found low on confidence.

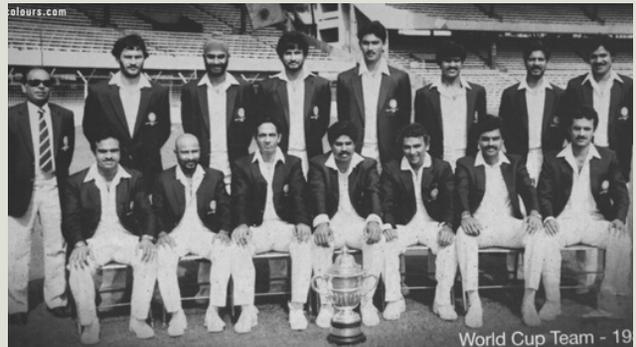

Entering into the next match, India was in trouble at 9/4 that soon became 17/5. Out walks the Indian Captain, Kapil Dev, to lift the confidence of a depleted side. He along with Roger Binny look to India out of the trouble waters initially and blasted the Zimbabwean Bowlers away in the death overs ending up with a mighty 175\* and powering India to 262/8. India managed to win the game despite being on the back foot in the initial part of the game. The win lifted the confidence of the Indian Team and helped to create a positive environment in the Indian Dressing Room. This match feels like it is destined to be a dramatic one. The groundmen of the match went on a strike for their low salaries and refused to broadcast the game. The knock from the Captain Kapil Dev turned out to be one of the historic knocks in the format of the game and the fact that very few people has seen the innings makes it a precious one. He was awarded Man of The Match Award for his all-round heroics. That left the next fixture as a straightforward one for qualification between Australia and India. Batting first, India managed to score 247/10 in a team effort where the highest score was 40 and there were 37 extras. Australia collapsed to 129 all out, with Madan Lal and Roger Binny wreaking havoc taking 8 wickets between them. India was facing England in the first Semi-final. England won the toss and elected to bat first. The Indian pace quartet did well to restrict England to 213 in 60 overs. Yashpal Sharma, Sandeep Patil and Mohinder Amarnath led India to the Finals.

For the first time in an ICC Tournament, India has entered the finals. This news spread across the nation within hours. All of a sudden, the entire nation was excited about the Indian Team entering the Finals. Everyone was looking forward to the Finals. Still, there weren't many expectations on the Indian side. As the West Indian team has several stalwarts in the XI. From openers to the 11th player, every one of them has left a mark on the game of cricket. As expected, West Indies won the toss opt to bowl first. India was bowled out for a mere 183. Indian pacers did well to manage send the openers packing early.

The West Indies were on course of a collapse but the game changer Viv Richards was still at the crease. Madan Lal sent a bouncer at chest height to Richards, which was too easy for Richards to pull. But the Indian captain, Kapil Dev pulled out a catch for the ages, running backwards from square leg to deep mid-wicket. Celebrating with a sprint across the ground. Then, it was too easy for the Indian pacers to demolish other batsmen and complete the best under-dog victory in the History of Cricket.

It still remains the lowest ever total defended successfully in a World Cup Final. Amarnath was once again awarded the Man of The Match for his all-round performances That win on that day inspired generations of Indians to take up the game and inspire to deliver many proud moments for the country. After the Tournament has ended, apart from the ICC's prize money, BCCI doesn't even have any money to reward the players for winning the Cup. To collect funds, BCCI has organized a music concert with Lata Mangeshkar and rewarded the players with the funds obtained from the concert. From having no money to award the players for winning a World Cup to giving a Rajni player a Match Fees in Lakhs. Indian Cricket has come a long way.

# IMPACT OF BINGE WATCHING WEB SERIES/TV SHOWS

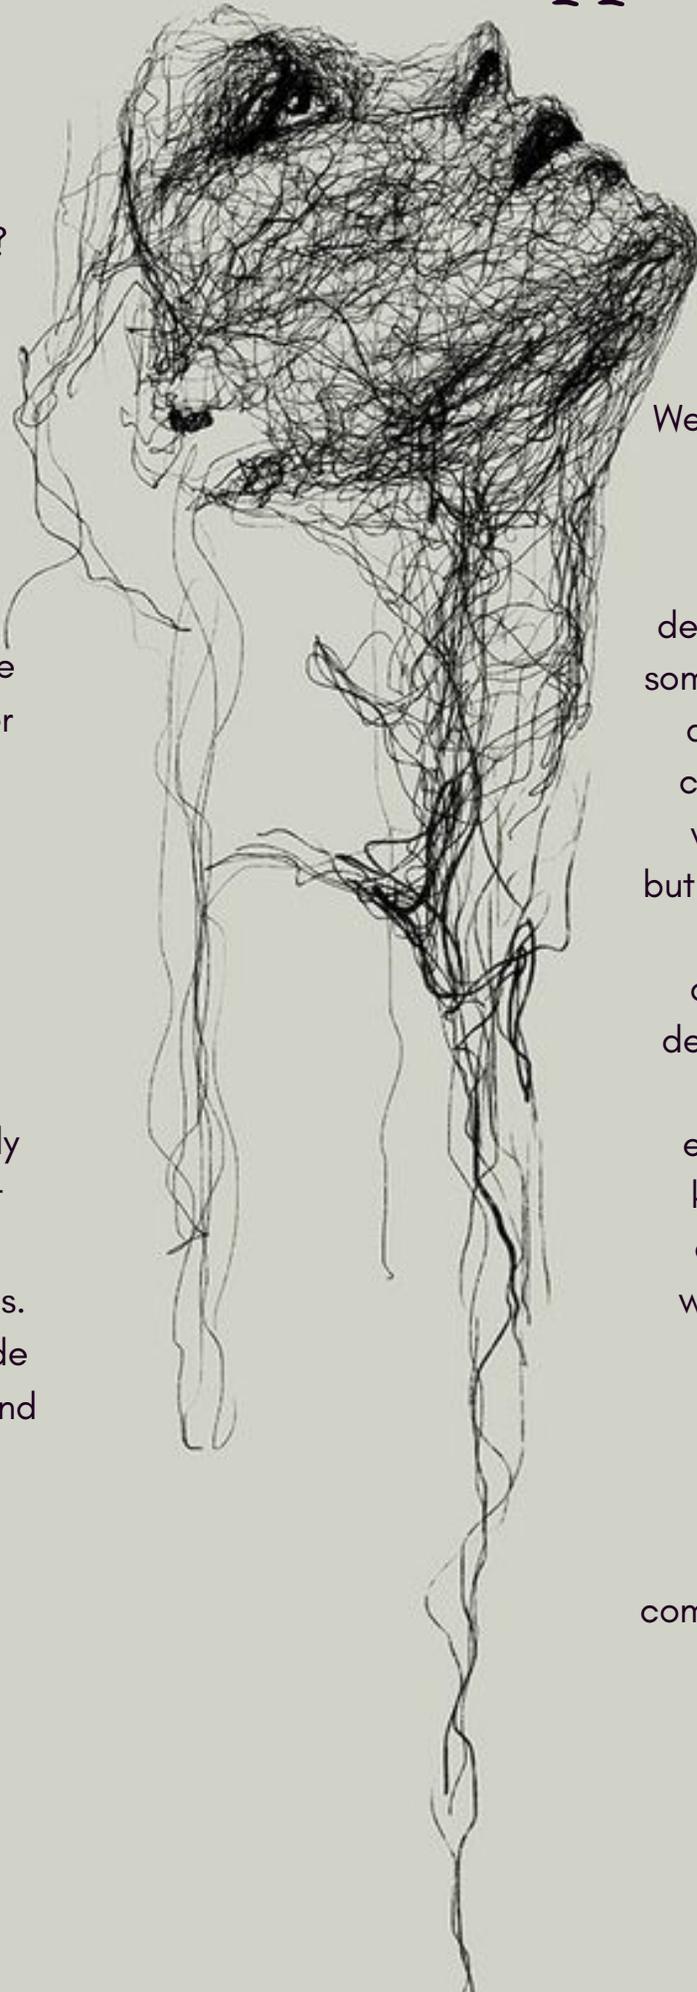

Binge-watching is a new pattern that has become ultimately popular in recent times. Particularly, young people invest more time in binge-watching web series and TV shows as an activity. Many platforms like Netflix, Amazon, etc., have made things easier by making a series of episodes where the viewers can watch and can also relish different types of content. People started watching more series instead of movies because a movie has characters transformed in certainly 2-3 hours whereas in web series, the characters run through several episodes and people relate to most of the characters. It is easier for the actors to adapt their characters and make the audience relate to their lives. Most of the youth follow their favorite actor on social media. The episodes have a lot of cliffhangers which makes the user ardent to know what is going to happen. People can subscribe and watch the series repeatedly. That is why TV shows have become more popular than movies. Web series concentrates more on content creation with less annoying advertisements in between at a minimum subscription charge. Movies are being affected because of these series. People started talking about series and episodes instead of movies. There is a psychological reason why binge-watching is so satisfying to the viewers. It releases dopamine in our system that makes us feel pleasure while watching. Hence it would enable people to watch them for a longer time and that exactly can be served from watching web series.

# *Apprehension to approach*

Have you ever felt anxious? Did your heart increase its pace or did you start sweating while talking to someone, travelling alone, getting in touch with new people? Even an extrovert tends to feel anxious while approaching people. As we have studied in our younger classes' adrenaline is released due to stress. We tend to think of different circumstances while approaching a situation. Anxiety may be a boon as well as a curse. It enables our brain to work effectively and control the situation. It might as well take over us and cause serious problems. At times we don't go outside to avoid meeting people and search for reasons.

We feel hesitant to talk to strangers. We feel like that while being the center of attention, delivering a speech when someone confronts us and at times when someone close to us is not feeling well. It doesn't last long but strains us mentally. We need to start thinking about positive things to decrease the stress level. Most of us must have experienced it but don't know how to restrain or control it. They say that we need to take a deep breath and be mindful. Practicing meditation helps us control our hormones. Being confident and comfortable in our skin will be helpful.

# RECIPES

---

*Cooking requires confident guesswork and improvisation experimentation and substitution, dealing with failure and uncertainty in a creative way.*

*~Paul Theroux*

## INGREDIENTS:

Salt, pepper, sweet corn, cilantro, garam masala, ginger-garlic paste.

## PROCEDURE:

Take properly washed sweet corn and mix some baking soda along with salt for seasoning. Add pepper, ginger-garlic paste and garam masala according to your taste. Mix the portion thoroughly. Turn on your grill and let it preheat. Then put corn and let it char on one side add some pepper and flip them. Add cilantro along with pepper in the end and you're ready to serve.

# ITALIAN CORN

# BIRIYANI

---

Don't you think biryani is an emotion. Yes it is for a lot of people. This is my excuse today to teach you restaurant-style biryani. For this biryani, we are making it easy for marination.

## Ingredients:

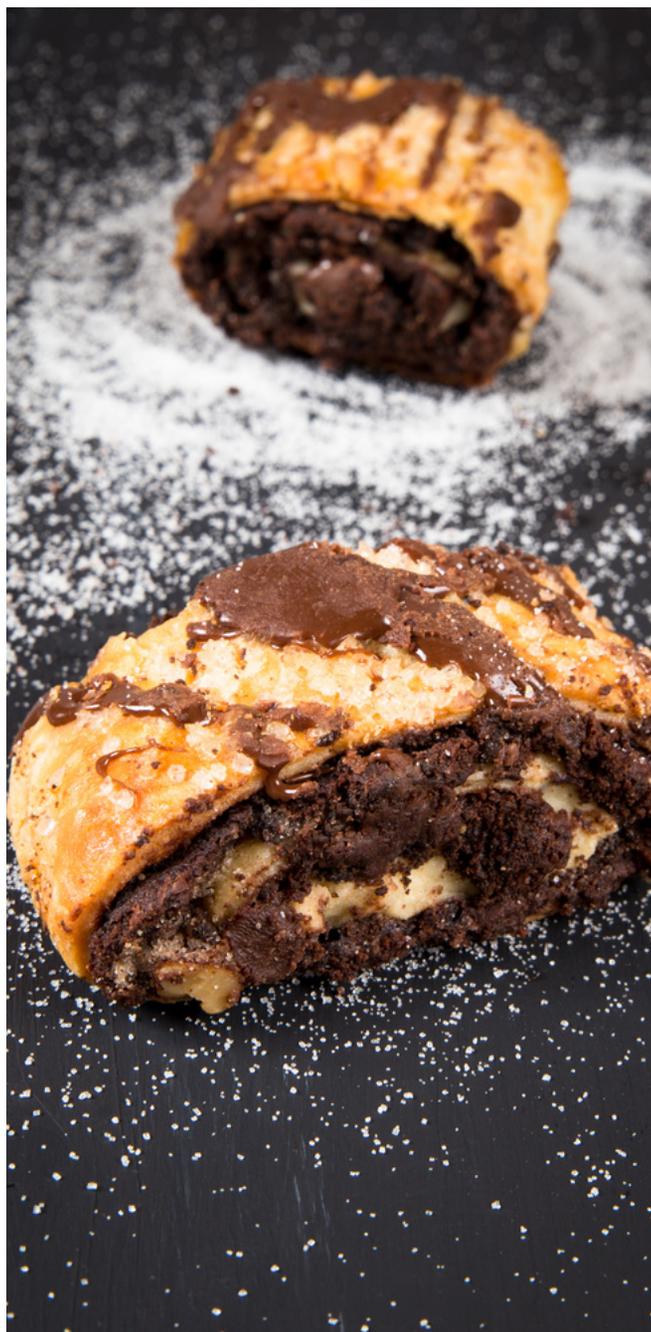

Bay leaf, star anise, cloves, pepper corn (SPICES), green cardamom, cinnamon sticks, Shahi jeera, maza, dagad pool, anasa povu or biryani phool, cumin powder, red chili powder, ginger-garlic paste, coriander powder, turmeric, salt, yogurt, chopped coriander, mint leaves, green chilies

## Procedure:

First, we are going to put of these spices and then we're going to marinate our chicken and then this is going to be nicely dumf cooked. Now add these raw spices in the chicken. The chicken for biryani has to be slightly bigger pieces than the normal chicken curry. Add chili powder and coriander powder, cumin powder, turmeric powder, ginger-garlic paste, curd, chopped-green chilies, mint leaves, coriander leaves, lime juice, salt to this.

Mix sufficient oil to it. Mix the whole stuff and keep in the refrigerator for at least 3-4 hrs. Now the chicken is marinated. Now the rice has to be soaked in the water for at least 1 hour. So, here's water, just add 2-3 spoon of oil and some salt, add shahi Jera leaf. The rice is going to cook in that water which we boiled before. Keep the marinated chicken in the biryani handed some fried onion and mix it. Spread the chicken in such a way each piece of chicken is touching the pan. Now take the cooked rice to the handy and spread the rice. Just put the fried onions on it. Add some food color. Top it off with 1 tbsp of ghee. Now put the lid and press it. After 5 minutes of high flame and another 15 mins of low flame, just pull the biryani handy out put a tawa and put the handy back. After 35 minutes you will get the yummy biryani ready what you've expected

# RUGELACH

## INGREDIENTS :

All-purpose flour, butter, salt, oil, brown sugar, egg, coarse salt.

## PROCEDURE:

Take all-purpose flour and add butter, salt along with oil and form a dough. Divide the dough into two parts and cover it in plastic wrap and refrigerate. Place the dough on two baking sheets after brushing them with butter. Place it in the oven after preheating it at 350°. Pour Nutella along with brown sugar on top, turn it into a ball and press it down to form a rectangle then divide it into eight triangles. Start at the bigger end and roll it. Place in the freezer for about fifteen minutes. Brush it with egg wash and bake till golden for about 20 minutes. Then garnish them with some coarse salt.

WOMEN LEADERSHIP TRAINING PROGRAM

## Women Leadership Training Program

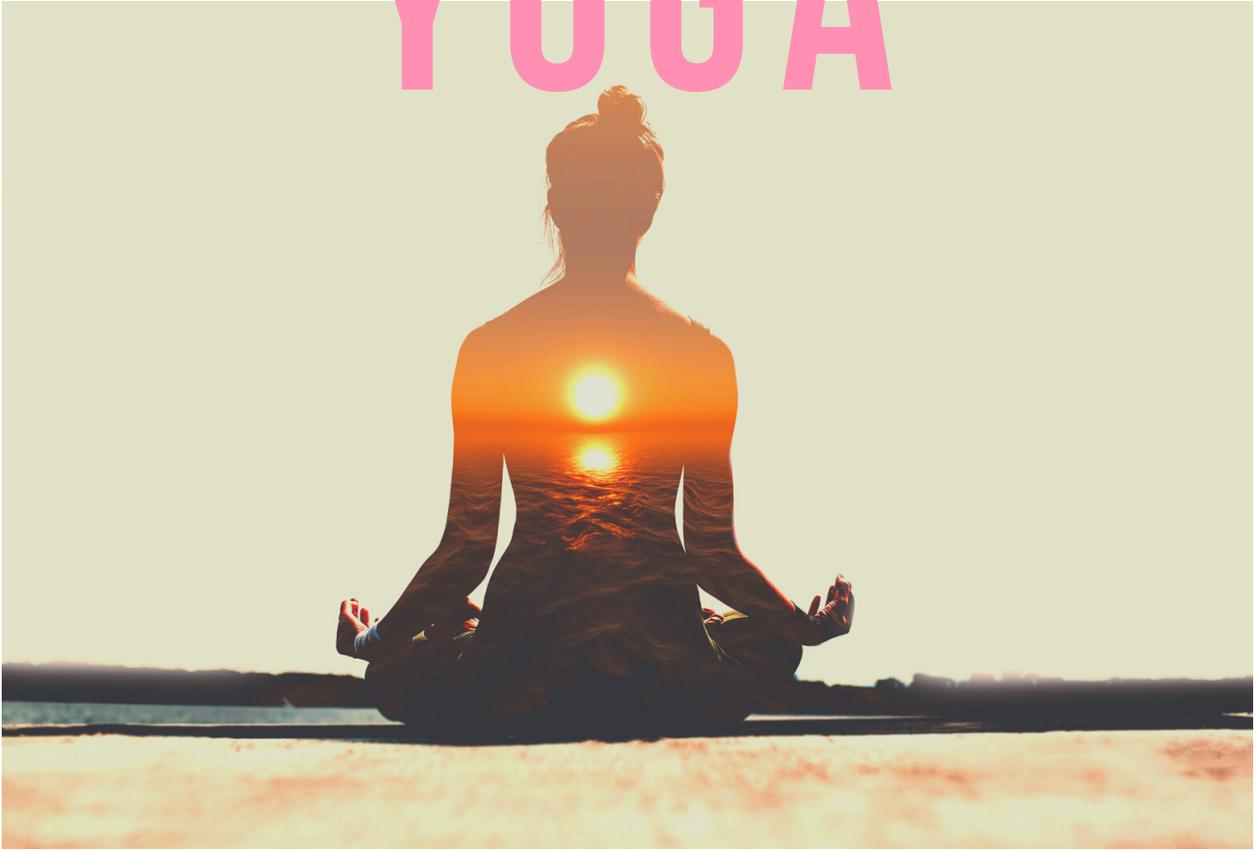

WLTP is a part of the Youth Leadership Training Program (YLTP). YLTP is a program that mainly focuses on developing leadership qualities among youth and bringing awareness to society about health and hygiene. Whereas WLTP is a one-week program that includes yoga, meditation, self-defense, developing leadership qualities and Project Pavithra for women. And some of my classmates have taken part in this program suggested by our beloved professor Dr. Sujatha Kodali. To be strong enough both physically and mentally, we need to work out with yoga and meditation.

Some of the yoga and meditation techniques we have learned from this program are:

- 1.Vajrasan
- 2.Bujangasan
- 3.SarvaBujangasan
- 4.Padmasan
- 5.Dhanurasan
- 6.Chakrasan
- 7.Suryanamaskar
- 8.Sudarshankriya
- 9.BastrikaPranayam

These techniques help us in maintaining fitness. The program also involves some leadership activities like dressing according to our taste, knowing our culture and traditions, etc. These activities instilled confidence in us, removed the guilty feeling of being a girl, and made us stronger to raise our voices. One day we spent learning some of the self-defense techniques to protect ourselves and to live independently.

# YOGA

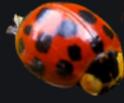

One of the main topics of this program is Project Pavithra. It's all about women's menstrual cycle. In this program, they suggested some health tips and yoga asanas like butterfly to avoid menstrual issues - related problems. Usually, some girl's question their birth. They made us appreciate a woman and explained our importance. We're feeling that "Woman is the only one who have the power to create this world. It is very difficult to bear labor pains during delivery times. But it is a golden opportunity for a woman to carry the future generations in her womb.

"After completion of this program, we all started adapting to the suggestions and observed changes in ourselves. We also communicated with many delegates who organized the program. They have supported us in every aspect and shared their knowledge. We will also receive a qualification as a certified yoga trainer for kids. It's a golden opportunity for us to know about all the aspects of WLTP and glad that we're also a part of this program and art of living.

# DID YOU KNOW?

Some turkeys can spontaneously impregnate themselves through a process called Parthenogenesis

Aphids give birth to other pregnant aphids

The eye makes movements 50 times every second

A giant tortoise thought to be extinct for 100 years was recently discovered in the Galápagos

Only 50% of crude oil is refined into fuel

A Mantis Shrimp can punch with the force of a 22-caliber bullet

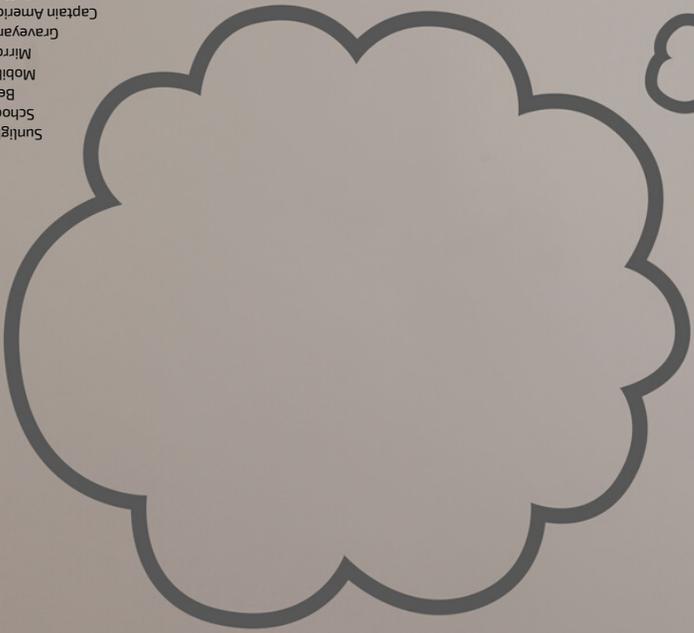

Moon flowers actually bloom in response to the moon

There are more trees on earth than there are stars in the galaxy

In a room of 23 people, there's a better-than-50% chance the two people have the same birthday

# THE WORD FINDER

*Find a word using missing letters and hints given below:*

1. S \_ \_ l \_ \_ h \_

Hint: Important source of vitamin D.

2. S \_ \_ \_ o \_

Hint: First place where we find friends.

3. \_ e \_

Hint: we spend staggering 36 years on it.

4. M \_ \_ i \_ l \_

Hint: most used gadget by youth.

5. \_ \_ r r \_ r

Hint: the reflection it reflects.

6. \_ \_ \_ v e \_ \_ r \_

Hint: the place where dead people are buried

7. C \_ \_ t \_ \_ n A \_ \_ \_ i \_ \_

Hint :A patriotic super hero from avengers

8. \_ \_ f f \_ \_

Hint: a day starts with this for many people.

9. \_ \_ m \_ \_ o

Hint: its scientific name is lycopene

10. K \_ \_ \_ a \_ i

Hint : a contact team sport played between two teams

A GOOD BOOK HAS NO ENDING

# BOOK REVIEWS

# IN 27 DAYS

This book was first published in Wattpad the online books app. I accidentally stumbled upon this book and hesitated in the beginning because the book's description was about death and all such depressing words. The book starts with the male protagonist Archer suicide whose death vibrates in the school and every one mourn for him. Hadley female protagonist feels as if something was wrong but can't quite put her finger on that. After listening to this news from her German teacher she feels devastated and goes back home and decides to go to his funeral. She talks with his mom and sisters and while coming outside she meets a suspicious guy who introduces himself as dead. Feeling curious she talks with him while he tells her that he would bring Archer back and give her a chance to retrieve his life in about 27 days the time he took to take his life away. As she wakes up she finds Archer standing before her. Archer starts scolding her to get out of the restaurant. Will she be able to save him, will she fall in love with him?

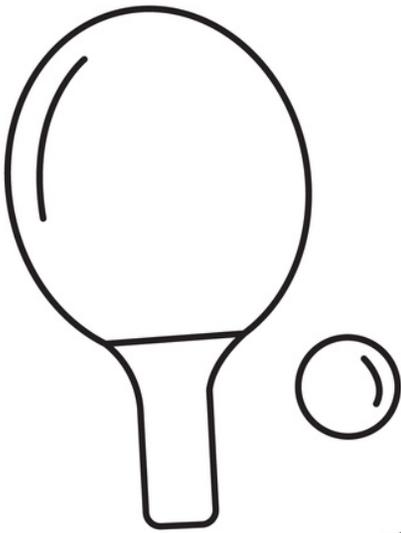

What Is Going  
To Happen Next  
Read At Your  
Own Risk

# VAMPIRE ACADEMY

Did you ever search for a story where the female protagonist leads the whole story? Then you finally reached your destination. Rose Hathaway is a fierce, competitive and passionate woman. There are all vampires specialized in different aspects like fire, water, air and land studying in a school. There are dhampires who are the guardians for these vampires based on the family they were born into. Rose's best friend Vasilisa Dragomir was born into the royal family who lost her family in a car accident. Rose is Lisa's guardian who discovers that she has a new ability of spirit who can influence the way others think, save people. Lisa falls in love with Christian a fire user having similar tragic pasts whose parents turn into strigoi. She has a well-wisher her father's friend whose health is deteriorating and wants Lisa to cure him. He captures her and then the story continues.

# SPORTS CLUB

RVR & JC

# SPORTS PLEX

Ongoing trends, rising technology, and the rising cost of living, all in all, every factor is tuning an individual to be passionate about getting a fancy income that leads to a comfortable life. Many say emotional stability is a must for one in their respective professional space, but don't you feel that " Physical fitness that helps mental wellness is also a must? "

Yes! It's very important to be physically fit for our body as well as mind. Following this, the management of RVR&JC College Of Engineering came up with a brand new initiative of establishing a SPORTS PLEX within the college area. It is a building of three floors. Each floor was constructed very precisely considering every aspect. The ground floor is all about badminton court. The first floor is a fitness center for boys along with different indoor games like carrom board, table tennis and chess. The second floor caters to girl's fitness. Both the fitness centers have Dumb-bells, Leg push, Thread mill, Leg press, Cycling, Leg extension machine, Lat pulldown machine and recumbent bike.

In addition to the sports complex, we have the privilege of having a basketball court, football court, and a vast cricket ground. RVRJCian's never failed to prove themselves in terms of sports. In the championship conducted by Andhra University, they won trophies in football, basketball and cricket. RVR & JC endorses a unique concept of wanting its millennials to be physically fit. As always, it stood as an inspiration to many institutions out there.

COMING  
TOGETHER IS A  
BEGINNING,  
STAYING  
TOGETHER IS  
PROGRESS, AND  
WORKING  
TOGETHER IS  
SUCCESS.

— Henry Ford

# TEAM ON TOES

Magazine work was discussed at the beginning of our semester. We formed a group of magzimates and commenced the process. We went through our senior's edition for guidance. We initially divided the work among us and collected articles from our friends, through social media and other sources. After collecting all our articles we sat down and selected the final articles and edited them. After completing all our respective tasks we came together as a team and built our magazine. We strived jointly, enjoyed each other's company, shared our thoughts and ideas. As the word team implies together everyone achieves more we felt like a live example of the fact. Meeting deadlines and completing the task one after another in a time crunch was exciting as well as nerve-racking. It was a roller coaster ride in the beginning later we found a middle ground and started assembling everything.
